

# CLARK GROUT & MORTAR SPRAY GUN

Product Data Sheet

## Grout & Mortar Spray Gun

The Clark grout and mortar spray gun is an air assisted applicator for applying cement or plaster based material to a pre-determined thickness in mining and construction applications. The main body is manufactured from light weight impact resistant cast nylon. The spray gun is available as a stand alone unit or with a wand for reaching various heights. The spray gun is ideal for use with pumps from the Clark grout range.

### Applications:

- Ground stabilization
- Ventilation control
- Concrete repairs
- Waterproofing

### Features:

- Choice of wand length
- Dust free operation
- Wear resistant nozzle
- Very low rebound

### Suitable fluids:

- Plaster compounds
- Water proofing material
- Cement renders
- Fiber based material
